1. and 2. Source: Platinum for fund returns and RIMES Technologies for MSCI returns. The Fund's total returns are calculated using its net asset value per share (Class D) and represent its combined income and capital returns for the specified period. The Fund's total returns are pre-tax and are net of fees and expenses (excluding investment performance fees, if any) and assume accumulation of net income and capital gains attributable to the Class D of the Fund. The Fund's returns are historical only. Past performance is not a reliable indicator of future performance and no warranty can be given or is given for future performance of the Fund. Due to the volatility of the underlying assets of the Fund and other risks associated with investing, investment returns can be negative (particularly in the short-term). Investment returns and share prices fluctuate with market conditions, and investors may have a gain or loss when shares are sold. Fund performance changes over time and the return as of the time of your access to the information presented herein may be significantly lower than the historical returns stated above. The index represented is the MSCI Japan Net Index (US\$) (the "Index"). Index returns include dividends but, unlike the Fund's returns, do not reflect fees or expenses. The inception date for the Index is taken to be the inception date of Class D of the Fund for the purposes of this report. It should be noted that the Investment Manager does not invest by reference to the weighting of the Index. Underlying assets of the Fund are chosen through the Investment Manager's individual stock selection process and as a result holdings vary considerably to the make-up of the Index. The Index is provided as a reference only.

2. The investment returns depicted in this graph are cumulative on US\$20,000 invested in Class D of the Fund since inception relative to the Index returns over the same period.

3. The "Long %" figures represent the Fund's exposure of physical holdings and long derivatives as a percentage of the Fund's net asset value. The "Net %" figures represent the Fund's exposure of physical holdings and both long and short derivatives as a percentage of the Fund's net asset value. The "Currency %" figures represent the currency exposure of the Fund's portfolio as a percentage of the Fund's net asset value, taking into account currency hedging.

4. The "Top ten positions" table shows the Fund's top ten long equity exposure positions as a percentage of the Fund's net asset value. Long derivative exposures are included, however, short derivative exposures are not.

[^] As a percentage of the net asset value of the Fund attributable to the relevant Share Class per annum.

^{*} As a percentage of the amount by which the Fund outperforms the reference benchmark (after deduction of the Base Fee, but before deduction of any accrued Performance Fee). If the return on the Fund in any year is less than the reference benchmark, the difference for that year will be carried forward and applied against the subsequent year's return for the Fund for the purpose of calculating a Performance Fee. The shortfall will be carried forward until a Performance Fee becomes payable. No Performance Fee can be paid unless all prior underperformance has been clawed back.

[#] This represents, as a percentage of the net asset value of the Fund attributable to each Share Class, the maximum amount that can be paid out of the Fund to cover fees and expenses in a financial year, excluding Performance Fees, if any, that may be payable to the Investment Manager, but including any Base Fees and out-of-pocket expenses payable to the Investment Manager as well as any fees and expenses payable to the Custodian and the Administrator. The Investment Manager has voluntarily undertaken to reduce or waive all or a portion of its Base Fee or to make other arrangements to reduce the fees and expenses of the Fund to the extent necessary to ensure that the total fees and expenses in a financial year (excluding Performance Fees) do not exceed the stated levels. The Investment Manager may terminate or modify any such voluntary agreement at any time at its sole discretion upon thirty (30) days' notice in writing to the Shareholders.
