1. & 2. Source: Platinum for fund returns and Factset Research Systems for MSCI returns. Fund returns are total returns, calculated using the NAV per share of the stated share class, are pre-tax, net of fees and costs (note the anti-dilution levy is not an expense of the fund) and assume the accumulation of net income and capital gains attributable to the relevant share class. The investment returns depicted in the line graph are cumulative on US\$20,000 invested in share Class D since inception. The returns are calculated relative to the MSCI AC Asia ex Japan Net Index in US\$. However, it should be noted that Platinum does not invest by reference to the weightings of the index and it is provided as a reference only.

3. The "Long %" is the exposure to long securities and long securities/index derivative positions, the "Short %" is the exposure to short securities and short securities/index derivative positions and the "Net %" is the exposure to long and short securities and long and short securities/index derivative positions, each as a percentage of the market value of the fund's portfolio. The "Currency %" is the effective currency exposure as a percentage of the market value of the fund's portfolio taking into account long and short securities, cash, forwards and long and short securities/index derivative positions. For the "Industry breakdown", index positions (whether through ETFs or derivatives) are only included under the relevant sector if they are sector specific, otherwise they are included under "Other".

4. The "Top ten positions" show the fund's top ten long securities positions as a percentage of the market value of the fund's portfolio (including long securities and long securities derivative positions).

Returns could be reduced, or losses incurred, due to currency fluctuations.

<sup>^</sup> As a percentage of the net asset value of the Fund attributable to the relevant Share Class per annum.

<sup>\*</sup> As a percentage of the amount by which the Fund outperforms the benchmark index, being the MSCI AC Asia ex Japan Net Index (US\$), after deduction of the Base Fee, but before deduction of any accrued Performance Fee. If the return on the Fund in any year is less than the benchmark index, the difference for that year will be carried forward and applied against the subsequent year's return for the Fund for the purpose of calculating a Performance Fee. The shortfall will be carried forward until a Performance Fee becomes payable. No Performance Fee can be paid unless all prior underperformance has been clawed back.

<sup>#</sup> This voluntary cap represents, as a percentage of the net asset value of the Fund attributable to each Share Class, the maximum amount that can be paid out of the Fund to cover fees and expenses in a financial year, excluding Performance Fees, if any, that may be payable to the Investment Manager, but including any Base Fees and out-of-pocket expenses payable to the Investment Manager as well as any fees and expenses payable to the Custodian and the Administrator. The Investment Manager has voluntarily undertaken to reduce or waive all or a portion of its investment management fee or to make other arrangements to reduce the fees and expenses of the Fund to the extent necessary to ensure that the total fees and expenses in a financial year (excluding Performance Fees) do not exceed the stated levels. The Investment Manager may terminate or modify any such voluntary agreement at any time at its sole discretion upon thirty (30) days' notice in writing to the Shareholders.
