1. & 2. Source: Manager for Fund returns and RIMES Technologies for MSCI returns. Fund returns are total returns, calculated using the Fund's Class D NAV per share, are pre-tax, net of fees and costs (note the anti-dilution levy is not an expense of the Fund) and assume the accumulation of net income and capital gains attributable to Class D. The investment returns depicted in the graph are cumulative on US\$20,000 invested in the Fund since inception. The returns are calculated relative to the MSCI Japan Net Index in US\$. However, it should be noted that the Manager does not invest by reference to the weightings of the index and it is provided as a reference only.

3. The "Long %" represents the exposure to direct securities holdings and long stock/index derivatives as a percentage of the Fund's net asset value. The "Net %" represents the exposure to direct securities holdings and both long and short stock/index derivatives as a percentage of the Fund's net asset value. The "Currency %" represents the effective currency exposure of the Fund's portfolio as a percentage of the Fund's net asset value, taking into account currency exposures through securities holdings, cash, forwards and long and short stock/index derivatives.

4. The "Top ten positions" show the Fund's top ten long positions as a percentage of the Fund's net asset value. Direct securities holdings and long stock derivatives are included. However, short stock derivatives are not included.

Past performance is not a reliable indicator of future performance.

[^] As a percentage of the net asset value of the Fund attributable to the relevant Share Class per annum.

* As a percentage of the amount by which the Fund outperforms the benchmark index, being the MSCI Japan Net Index (US\$), after deduction of the Base Fee, but before deduction of any accrued Performance Fee. If the return on the Fund in any year is less than the benchmark index, the difference for that year will be carried forward and applied against the subsequent year's return for the Fund for the purpose of calculating a Performance Fee. The shortfall will be carried forward until a Performance Fee becomes payable. No Performance Fee can be paid unless all prior underperformance has been clawed back.

This voluntary cap represents, as a percentage of the net asset value of the Fund attributable to each Share Class, the maximum amount that can be paid out of the Fund to cover fees and expenses in a financial year, excluding Performance Fees, if any, that may be payable to the Investment Manager, but including any Base Fees and out-of-pocket expenses payable to the Investment Manager as well as any fees and expenses payable to the Custodian and the Administrator. The Investment Manager has voluntarily undertaken to reduce or waive all or a portion of its investment management fee or to make other arrangements to reduce the fees and expenses of the Fund to the extent necessary to ensure that the total fees and expenses in a financial year (excluding Performance Fees) do not exceed the stated levels. The Investment Manager may terminate or modify any such voluntary agreement at any time at its sole discretion upon thirty (30) days' notice in writing to the Shareholders.
