FIRM AND FUND INFORMATION

Firm Overview:

Platinum Asset Management is a Sydney-based fundamental long/short equity fund manager established in 1994. Platinum's index-agnostic approach seeks to deliver long term absolute returns by looking beyond short-term market turbulence caused by events of a transient nature to seek out 'unfashionable' companies whose actual worth is greater than the value implied in their present share price. Similarly, when Platinum's research reveals that a company's prospects are overvalued, Platinum may short-sell such stocks. Platinum also seeks to protect capital via adjusting net exposure to markets.

MONTHLY REPORT 31 JANUARY 2024

FIRM AND FUND INFORMATION

Firm Overview:

Platinum Asset Management is a Sydney-based fundamental long/short equity fund manager established in 1994. Platinum's index-agnostic approach seeks to deliver long term absolute returns by looking beyond short-term market turbulence caused by events of a transient nature to seek out 'unfashionable' companies whose actual worth is greater than the value implied in their present share price. Similarly, when Platinum's research reveals that a company's prospects are overvalued, Platinum may short-sell such stocks. Platinum also seeks to protect capital via adjusting net exposure to markets.

Fund Approach:

The fund's long short equity portfolio has a long bias with its net invested position able to range between 50% and 100% of the fund's NAV. The fund's net invested position will be varied through the use of shorting techniques via equity and index derivatives and through the adjustment of the fund's cash position.

CTR calculations are gross of all fund fees and costs.
